Retractable Awnings

Palladio 2040

The 2040 is a folding arm awning that is standard with a protective cassette hood. This model has extra strength components to support the available 13 ft. arm. Aluminum frame colours are white or ivory.

Material completely retracts into the hood protecting it from the elements when not in use.

Roll down front sun/privacy curtain. Optional on 2040 and 2020

Palladio 2020

The 2020 has all of the same features yet does not come with the protective hood. Maximum projection 13 feet.

Optional light kit is available on all models. This kit is colour matched to the frame and illuminates the area under the awning.

Sunpitch

The Sunpitch has a unique gear rack extruded arm support allowing the awning to be easily tilted to any angle by the user. This feature allows for better sun protection and rain dispersal. Maximum projection of 11 ft. 8 in. Aluminum frame colours are white, ivory or grey.

Australia

The Australia is the base model. Aluminum frame colours are white, ivory or grey. Maximum projection 10 feet.

All models are standard with the maximum strength heavy duty stainless chain arm.

Awning shown in tilted position.

Unique gear rack extruded arm support. Manually adjusted with crank handle.

Control Options

SOMFY ALTUS MOTOR

Integrated radio receiver that allows for the awning to roll in and out with the use of the shown controllers.

SOMFY EOLIS WIND SENSOR

This wire-free wind sensor measures awning movement. Upon detection of excessive movement, the sensor emits a signal to retract the awning automatically.

SOMFY HAND-HELD REMOTES

Control the sun with the push of a button. A remote control allows for a favourite setting as well as the ability to operate several units.

SOMFY SUNIS SUN SENSOR

Based on the sun's intensity this wire-free sensor will emit a signal to extend the awning.
